New Forests sets responsible investment goals as part of corporate business planning and reviews and reports on performance on an annual basis in our Annual Sustainability Report. At the level of each investment fund, asset management targets are set in order to comply with the company's Social and Environmental Management System. Key social and environmental performance and issues are reported each quarter for all funds, and annual internal audits of SEMS compliance (including with objectives for asset management and certification) are conducted for each fund. Finally, each staff member has a key performance indicator related to responsible investment that is reviewed biannually as part of performance reviews and evaluation.

Additional information

New Forests sets RI objectives under corproate sustainability initiatives in the annual business planning process and as part of the Sustainability Working Group targets and work plan. The 2017-2020 business plan includes the following:

- a) Produce a key thought leadership piece on sustainable landscape investment.
- b) Develop measurable indicators that can be implemented in monitoring our performance against the sustainable landscape investment approach.
- c) Increase ESG engagement activities with our clients and demonstrate compliance with ESG-related investor requirements.

d) Complete SEMS Audit, PRI reporting and Annual Sustainability Report.

Company Secretary

- Oversight/accountability for responsible investment
- ☑ Implementation of responsible investment
- \Box No oversight/accountability or implementation responsibility for responsible investment

G 07.2

For the roles for which you have RI oversight/accountability or implementation responsibilities, indicate how you execute these responsibilities.

Board of Directors --> Oversight of sustainability programs

- Approve RI Policy
- Approve SEMS Management Review Approve annual sustainability report
- Approve annual sustainability report

Executive Committee --> Oversight of sustainability programs and set sustainability goals and strategy

- Approve SEMS guidance documents and key procedures
- Inclusion of sustainability within business strategy and management

Risk & Compliance Committee --> Oversight of ESG risks and compliance

- Review SEMS audit reports and Management Review
- Approve variances to SEMS compliance or processes if related to an ESG risk

Management Committee(s) --> Oversight of ESG management

• Approve variances to SEMS compliance or processes for assets under management

Investor Services team (via Associate Director, Sustainability & Communications) -> Oversight and implementation of ESG management

- Administer the SEMS and RI Policy and associated activities
- Provide guidance to Board, committees, and staff on ESG issues
- Monitor ESG performance and report on ESG performance to senior management and stakeholders at least annually
- Internal sign-off on investments from ESG risk and management perspective
- Recommend variances to SEMS compliance to committees as needed
- Issue SEMS documents for approval to committees

Portfolio managers, E&S manager, and investment analysts --> Implement ESG management

- Comply with SEMS and Declaration Documents
- ESG assessments in due diligence and asset management
- ESG implementation support to third parties
- Delegate to third parties with control over ESG related activities
- Manage investment team staff responsible for ESG impacts and management

The Legal, Risk, and Compliance team and Company Secretary contribute to ESG implementation through risk management and governance support, both at the New Forests' corporate and fund levels as well as supporting portfolio companies and investments to implement best practices in risk management and good corporate governance.

SG 07.3	Indicate the number of dedicated responsible investment staff your organisation has.

SG 07.4	Additional information. [Optional]
regulatory cor control systen	s committed to conducting business in a responsible and ethical manner. We have in place a governance and compliance framework driven by npliance (including for the company's Australian Financial Services Licence); funds management governance, administration, and operational ns; and a Social and Environmental Management System (SEMS). Key aspects of New Forests' approach include a body of company policies an d regular compliance training.
	governance bodies work across the business to promote ethical and responsible decision making; recognise and manage risks; maintain fiscal

responsibility; lay a solid foundation for management and oversight; and make timely and balanced disclosures. This governance approach is also closely linked to the involvement of senior management and the New Forests Board of Directors in ensuring our business' success, including our commitment to responsible investment.

Our responsible investment activities are directly integrated into this governance framework via our SEMS and its related Responsible Investment Policy. New Forests' SEMS operates across our business with integration at the Board, corporate, and investment product levels. New Forests' Board of Directors is responsible for setting the company's Responsible Investment Policy. The SEMS is administered at the corporate level by the SEMS Administrator (currently the Associate Director - Sustainability & Communications) with responsibility for overseeing the implementation of the SEMS, including oversight of its

implementation within all New Forests' investment products and annual evaluation and reporting as part of internal SEMS audits. At the investment product level, Portfolio Manager(s) are responsible for applying the guidance in the SEMS to each investment product and integrating the SEMS policies throughout the investment management process as defined in the SEMS Declaration Documents. The SEMS Manager reports on SEMS performance, at least once per year, to the Risk and Compliance Committee and the New Forests Board of Directors for review and recommendations for continual improvement. The Board provides input and feedback, which are used to generate improvement within the SEMS and New Forests' business in terms of managing material ESG issues.

governance. Carbon forestry and conservation finance in the United States. Forestry investment in the United States has evolved beyond traditional timber management to also encompass returns driven by conservation management strategies and the valuation of ecosystem services in growing environmental markets. New Forests' US investment strategies seek to provide higher returns by combining timberland investment, carbon management, and conservation finance. Carbon forestry enables investors to realize returns from combining revenue streams above and beyond traditional sustainable forest management. □ Sustainable agriculture Microfinance □ SME financing Social enterprise / community investing Affordable housing Education Global health □ Water Other area, specify O No
